

Mozambique crash victim dies here

ONE of the five survivors of the Mozambican air disasters on Sunday died in Parirenyatwa Hospital yesterday morning, bringing the death toll to 50. His name has not yet been released.

A spokesman for the hospital told Ziana that the latest victim was one of four survivors admitted to Parirenyatwa late

Wednesday afternoon suffering from extremely severe burns.

She said the victim died at about 1.30 am from severe wounds received when the Mozambican Air Force Antonov-26 aircraft crashed in flames at Pemba Airport shortly after take-off.

The Zimbabwean authorities are now trying to

trace his relatives.

The remaining three survivors flown from Maputo to Harare are reported to be in a satisfactory condition. Two of them — a man and a woman — are in general wards while another woman is in a special care ward.

Their names have not been released. — Ziana.
