

Border jumper^{Chron.} electrocuted₁₁ 2 97

CAPE TOWN — One person was killed through contact with the electrified fence on South Africa's northern border since October 1985, the Minister of Defence, General Magnus Malan, said yesterday.

Replying in writing to a question from Mr Brian Goodall (PFP Edenvale), Gen Malan said a Mozambican who had apparently been trying to cross the fence from north to south was killed on July 16 last year. — Ziana-Sapa.
