[Text] A total of 8,000 tons of fuel given by the USSR to Mozambique were unloaded at the Port of Beira last month. According to DIARIO DE MOCAMBIQUE newspaper, cited by AIM, the fuel is part of a package worth \$2.5 million granted by the USSR to our country as part of the Economic Rehabilitation Program. The source quoted (Ifink Titorenko), Soviet general consul in Beira, as saying that substantial quantities of rice, fish, clothing, and watches have been sent to Sofala Province as part of that package.

(Titorenko) added that as part of an additional donation, the USSR has given cement to the civil construction sector. The USSR will soon send to Beira six helicopters and an undisclosed number of trucks, as well as personnel to assist in the distribution of foodstuffs in the central and northern regions of Mozambique, within the framework of the emergency program.
