

Chissano recovers in Havana

MEXICO CITY. — Mozambican President Joaquim Chissano was in good condition in a Havana hospital following a prostate operation, the Cuban news agency, Prensa Latina said on Tuesday. Cde Chissano arrived in Havana last Thursday on a private visit, and the surgery took place on Sunday after doctors diagnosed a benign prostate tumor. Cde Chissano was able to get out of bed on Monday, eat normally, talk and walk around his room. — Ziana-AP. H 3-11-86
