

Mozambique: health problems at accommodation centre *(Text)* Malnutrition and diarrhoea kills 5 to 10 people every week at 16th June accommodation centre in Nicoadala, Zambezia province. This was reported by the co-ordinator of Nicoadala district's emergency commission during a seminar on the emergency in Quelimane. The 16th June accommodation centre is one of the newest, sheltering some 4,000 people, most of whom have been freed from armed bandit captivity. The emergency commission co-ordinator also reported that most of the victims are children. *(Radio Mozambique, Maputo, in Portuguese 1730 gmt 26 Jun 89)*
