EEC and Italian aid for fisheries project (Text) The EEC and the Italian government are to finance the development of fishing infrastructure in Nampula, Sofala and Inhambane provinces with 40,700,000 dollars (about 18,315m meticals). Sources in the EEC and in the Italian government have told the 'Noticias' newspaper that this project aims to develop fishing and research on fishing resources, with the objective of introducing industrial and semi-industrial programmes. The project, expected to last 40 months, provides for the creation of a fishing production and distribution centre in Nampula province and the establishment of a centre for the processing and preservation of export goods.
