

Helicopters for Government. Notícias (Moz.) April 15, '73

The Mozambique government has been authorised to borrow, from Sociedade Financeira Portuguesa, a total of 46,800,000 escudos (approximately \$1.9 m.) to purchase up to twelve helicopters which will be used by various government departments. A new corporation, with part of the capital subscribed by the government, is to be formed to operate the helicopters. The loan is for five years at 7.5% interest, partly in U.S. dollars and partly in Swiss Francs.
