

Fantasy ^H MNR attack

4 JUN 1987

THE Government yesterday denied reports by South African - backed MNR bandits that they attacked military barracks in Zimbabwe last Sunday.

In a statement, a Government spokesman dismissed the reports as "a pack of lies" made up by the leadership of the so-called Mozambique National Resistance movement in Lisbon in a possible attempt to cover up its failures in Mozambique.

"No such attack ever took place. The whole story is a pack of lies concocted by the leadership of the bandits in Lisbon.

"Authentic reports from Mozambique indicate that the MNR has suffered defeats in recent weeks and the population is intensifying its opposition to the bandits. —
