

'MNR LOOT RELIEF

SM

2 SEP 1987

LAW Enforcement agents will investigate allegations that food meant for people in drought-stricken areas of Masvingo is being looted by the MNR bandits, the Minister of National Supplies, Ode Simbi Mubako, has said.

Reacting to remarks by participants at a two-day workshop on regional development planning in Masvingo recently, Ode Mubako said the allegations would be dealt with as soon as possible.

It was alleged that the Renamo bandits were benefiting from drought relief supplies since the food relief programme started this season.
