

Mozambican forces report successes against MNR in Nampula and Manica *(Text)* A source at the Nampula military provincial command has told our correspondent that the Mozambique armed forces stationed in Nacala this month killed eight armed bandits and one collaborator. The source added that an unspecified number of people forced to live with the criminals have surrendered to the Mozambique armed forces in the region. Most of the people who surrendered had been abducted when the armed bandits attempted to attack the headquarters of Monapo district on 14th December.
