

Decision Criticised

A spokesman for the **Zambian** Foreign Ministry on June 28th condemned France for giving permission for the manufacture of Mirage aircraft in South Africa. The French decision was also condemned by the President of the Mozambique Revolutionary Committee (**COREMO**), who said that the aircraft were for use, not only in South Africa but also in **Portuguese** territories and **Rhodesia**. He called France "a treacherous nation—a nation that pretends to be friendly to freedom-lovers while at the same time it arms the enemies of free Africa". Condemnation also came from **Kenya** and **Algeria**. (R. Lusaka 28/6)
