

# Pik asks UN to hurry on Moz peacekeepers

NEW YORK. — Foreign Minister Mr Pik Botha yesterday said the United Nations must move quickly on installing peacekeepers in Mozambique to avoid the south-east African country turning into another Angola.

Speaking to reporters Mr Botha said he had told UN secretary-general Dr Boutros Boutros-Ghali that UN forces must reach Mozambique quickly, arms smuggling to Mozambique must be curbed and all parties must have access to the media.

The UN is sending a peacekeeping force of about 7 500 and intends to supervise elections this year.

Mr Botha is due to meet US Secretary of State Mr Warren Christopher today. — Sapa-Reuter
