## MOZAMBIQUE

**Session of joint commission with Brazil** The Mozambique-Brazil joint commission began meeting in Maputo on 29th May to examine bilateral co-operation in the fields of coal, fisheries, training and technical assistance. Americo Fortuna, national director of the Mozambican Ministry of Co-operation, said at the opening ceremony that he hoped the session would focus on priority areas of co-operation between the two countries. He added that the meeting must help bring about an end to the restraints that reduced the two countries' co-operation to just technical assistance after 1982.
