1730 GMT 20 Sep 88*

[Text] Mozambican Transport and Communications Minister Armando Guebuza left our country today for Harare, the Zimbabwean capital, within the framework of regular bilateral meetings concerning transportation.

[Begin Guebuza recording] Mozambique and Zimbabwe have decided to hold regular meetings concerning transportation, to assess and analyze the work done in that sector. It so happens that, for reasons beyond our control, it was not possible to hold any such meetings over the last 2 months.

Our visit to Zimbabwe now effectively resumes our regular meetings on transportation and communication. We are going to analyze the situation in the Limpopo Corridor, and the work that has been done there. We are particularly going to analyze the situation of the Beira Corridor.

We will also assess the movement of traffic through Maputo and Beira Harbors. [end recording]
