

# Call to invest in Mozambique

## **Herald Reporter**

**ZIMBABWEAN** firms should boost their investment in Mozambique and take advantage of the strong bilateral relations and Mozambican trade liberalisation, a Mozambican minister said yesterday.

At a Press conference in Harare, the Mozambican commerce minister, Cde Daniel Gabriel Tembe, said that the two countries enjoyed strong bilateral relations and historical background, but had limited joint ventures in trade.

While other countries like Japan, Spain and Hong Kong were investing in Mozambique to help rehabilitate that country's economy, few Zimbabwean companies were taking advantage of the trade liberalisation measures that were being introduced.

Cde Tembe, who is on a working holiday since last week, said that his ministry and the Zimbabwean Ministry of Industry and Commerce, had signed trade agreement minutes to facilitate Zimbabwean investment in his country.
